## **TRANSMITTAL OF FINAL NATURAL RESOURCE TRUSTEE DOCUMENT REVIEW SCHEDULE FOR IAG REMEDIATION ACTIVITIES - JEE-0268-92**

Attached is a copy of the final Natural Resource Trustee Document Review Schedule for IAG Remediation Activities at the Rocky Flats Plant. This schedule and flow chart, outlining trustee participation and review of CERCLA/RCRA/NEPA documents, was drafted and presented by EG&G's Ecology and NEPA Division at the Natural Resource Trustee Managers Meeting held April 6, 1992. In attendance at this meeting were representatives of the DOI, USFWS, CDOW, CDH, CAG, and EPA.

EG&G fully intends to support DOE with the goal of consolidating issues of the Natural Resources Trustees into the environmental restoration program. However, integration of the Trustees into the CERCLA/RCRA process, as suggested by this transmittal, was not anticipated during negotiation of the IAG schedule. EG&G expects that addressing Trustee concerns may require additional efforts from our staff, and may add additional challenges to our efforts to meet IAG milestone schedules.

If there are any questions or concerns, please contact Steve Nesta on X8605, or Richard Flory on X8680.
